About our values

We provide support through our diverse offline and online communities. With amazing programs and initiatives to always keep you

engaged, you never run out of network, resources and mentorship.

We provide resources and monitor your growth every step of the way through regular check-ins to ensure you are hitting your personal and career goals.

Through our intensive dedicated Mentorship program and various mentors available on our community platform, you are able to get help and guidance in your learning journey or career field whenever you need it.

Network and meet with other women in tech in Africa who have walked or are walking in the same path as you are and can relate with your experience while helping you on your journey.
