Support

us

SCA
at 5

Our partners and donors go a long way in creating an impact and helping us reach thousands of women in technology across Africa!

Help sponsor our events and initiatives to empower more African women in technology via a donation or more.

Being a sponsor gives more awareness to you or your organization's commitment to advocating for more women in technology while helping secure and cover costs for our numerous initiatives, provide learning resources and tools to facilitate our events and programs across our several

chapters.
